- User registration and login.
- Authentication and session management.
- Post creation, editing, and deletion.
- User profile management.

Movie DB

December, 2024

 <https://movie-db-nine-lake.vercel.app/>

A **Movie DB Website** is a platform where users can explore detailed information about movies, including plot summaries, cast details, trailers, ratings, and reviews. It can feature:

- **Movie Database:** A collection of movies categorized by genres, release years, and popularity.
- **Search & Filters:** Users can search for movies and apply filters like genre, year, or rating.
- **Movie Details:** Each movie page includes a synopsis, cast & crew, trailers, and user reviews.

- **Ratings & Reviews:** Users can rate movies and leave reviews.
- **Trending & Upcoming:** Sections showcasing trending and upcoming films.

Food-recipes

Recipe Details Website

October, 2024

<https://food-recipes-sooty.vercel.app/>

This website is a dynamic recipe platform that showcases a variety of delicious dishes. Recipes are loaded from JSON files without making network requests. The homepage features sections like **Super Delicious**, **Popular Categories**, **Hand-Picked Collections**, and **Latest Recipes**, each displaying relevant content. Users can explore recipes by category, view details with structured URLs, and navigate easily. The **Recipe Details** page provides essential information, including the title, author, publication date, and related recipes. Additionally, a **"You Might Also Like"** section suggests similar recipes based on category. The site ensures a smooth browsing experience with interactive recipe navigation.
